D. W. ADAMS,
(By authority,) City Clerk.

Have You
a Friend?

Then tell him about Ayer's
Cherry Pectoral. Tell him
how it cured your hard cough.
Tell him why you always keep
it in the house. Tell him to
ask his doctor about it. Doc-
tors use a great deal of it for
throat and lung troubles.

The best kind of a testimonial—
"Sold for over sixty years."

ADDITIONAL LOCALS.

Owing to Jewish holiday the Mes-
senger clothing store will close Friday
evening of this week and not open until
Saturday at 5 p. m.

The Lawrence Gould property, in the
north part of town changed hands Sept.
27th, Lewis J. Smith being the pur-
chaser. Sale and transfer was effected
through the Morden Real Estate Agency.
Died, Monday night Sept. 24th, Dorris
Reed, daughter of Mr. and Mrs. Rufus
Reed, aged 1 year and 27 days. The
funeral will place from the Methodist
Church at Elwell, Thursday morning,
Sept. 27.

Another big joke at the Wright Hall.
The new faculty, excepting the Dean,
are not satisfied with the table etiquette
of the students. We will soon know how
to appear for Monday evening a meeting
of the heads of the tables and their as-
sistants was called to discuss the correct
method of eating.—Cor.

Judge E. N. Chadwick had two
cases of larceny and one of assault
and battery before him last week. All
parties were Seville residents. De-
fendants in each case pleaded guilty and
paid the fines imposed by the judge.

A traveling man, whip salesman,
gave quite an exhibition of horse-
manship on the street here Monday
last, handling his horse attached to a
buggy by use of his whip alone. He
finally removed both bridle and lines
from the horse and drove out of town.
Tracy F. Bingham of Farwell,
Mich., has purchased the James B.
Tabbs property on Superior street
for \$1,000 in cash. The sale was made
by Spinney. Mr. Bingham is the Bee
Smoker man. He is the inventor of
all of the bellows smoker patents
granted by the United States and has
the reputation of having sold them for
26 years and never sold any patent
rights.

Since the death of Ex-Governor Bliss,
something of interest has been revealed
which was not known before. For
three years past, Gov. Bliss has given
\$500 annually for the benefit of the
Chair of Athletics for girls. His ac-
customed modesty prompted him to have
it kept quiet. Before his death he en-
dowed the college with \$10,000 in order
that the proceeds may permanently be
used for the benefit of this "Chair."

AN EXCITING RUNAWAY

While gathering cream for the Cen-
tral Michigan Produce Co. Monday
morning, Ralph Richard had an ex-
perience that he will not soon forget;
nor ever care to repeat.

He is not exactly clear where it
happened, but somewhere on the road
the bridle dropped off from one of
the horses and his team started at
once to run away. They were seen
running south of Himebaugh's farm,
but no one seems to know how far
south of there they started. They ran
to Atwell's corner and from there
east to Breckenridge.

Richards attempted to turn them
into the livery barn, but the un-
bridled one refused to turn and they
ran along by the side of Surprenant's
blacksmith shop, then turned into the
alley, running through by C. A. Zuh-
ler's residence and south on the new
road.

At the iron bridge, one mile south,
they turned west and then a new
danger confronted Richards. A buggy
was in the road ahead. He tried to
call the attention of the driver, Terry
Eldred, to his plight, but Terry could
not hear him.

The horses ran into the door yard
at Ed. Davis' and collided with an
apple tree, which stopped their flight.
Richards was not hurt, neither was
either one of the horses, but the neck
yoke, wagon tongue, reach and both
front bolster stakes were broken.

He borrowed a wagon of George
Himebaugh and after quite a delay,
was on his way again.—Clarion
Breckenridge.

The
Finishing Touch
in the construction of any
building is the roof. Without
a durable attractive roof the
entire appearance and service of the
building is unsatisfactory. Galvanized
iron, tin, tar and shingles are being dis-
carded on account of their unsatisfac-
tory results, and
REX FLINTKOTE ROOFING
is fast becoming the universal roofing. It costs
less laid than shingles, will outwear several galvan-
ized iron roofs, is absolutely waterproof, and many
buildings have been saved by its fire-resisting qual-
ities. Our book on roofing, which we will send with
free samples, is yours for the asking.
